

## ATS

### COMPANY OVERVIEW

Headquartered in Austin, Texas, ATS is a global solutions provider of networking equipment, network transformation & lifecycle services, asset management, and equipment sparing & maintenance. ATS has partnered with top tier manufacturers to provide best in class networking, mobility, and telecommunications solutions. Aligned with industry leaders, ATS provides solutions that range from network circuit connectivity and data center equipment, all the way to user end point devices.

Partnering with ATS on asset management also allows businesses to maximize their IT return on investment (ROI) by monetizing excess equipment assets and utilizing the ATS secondary market program. ATS routinely engages in large decommission and disposition projects for industry leaders.
